

Use Less Chemicals!

The chemicals we use to keep our yards perfect also find their way into the water we drink, swim in and the fish we eat. Everything that goes into our storm drains and groundwater goes untreated, straight into our rivers and streams.

Clean Water Starts Here!

Where's the Doggie Doo Doo?

Use the maze below to locate the Doggie Doo Doo. Can you Scoop the Poop before it goes into the storm drain?

Clean Water Starts Here!

Since Fido can't...
do your part.

Scoop the Poop!

Use the Carwash!

It's not just soap from washing your car that goes down the storm drain. It's also the oils and dirt from your car that go directly into the drain and run into our lakes and rivers, untreated, harming the fish and our water.

Clean Water Starts Here!

Scoop the Poop!

Always, always, always scoop your dog's poop. If left on the ground, the doo doo could end up on someone's shoe. Even worse, it carries disgusting bacteria that could wash into our rivers, streams and water supply.
